General

This document summarizes regulations pertaining to recreational fishing for marine species in Connecticut. For legal purposes, Regulations of Connecticut State Agencies (www.ct.gov/deep/laws-regs) and the Connecticut General Statutes (<http://www.cga.ct.gov/asp/menu/Statutes.asp>) must be consulted. Fish taken contrary to these regulations shall be released immediately, without avoidable harm.

Licenses

A Marine Waters Fishing License (MWFL) is required of anyone age 16 or older, fishing from shore or from a privately owned boat in the marine district of this state, or landing marine fish or "bait species" in Connecticut taken from offshore waters. Licenses may be purchased online at www.ct.gov/deep/fishing, or at DEEP offices, participating town halls, and tackle shops. Special "Personal Use" licenses are required for a) persons taking lobsters for their own use by up to 10 pots or SCUBA and b) persons taking menhaden with a single gill net not more than 60 feet in length, for personal use from marine waters.

Fees

Resident:

Age 16-64 - \$10⁰⁰

Age 65 and over - Free

Non-Resident:

Age 16 and over - \$15⁰⁰

Combination sporting licenses are also available.

Reciprocity

Connecticut recognizes saltwater fishing licenses from Maine, Massachusetts, Rhode Island, and New York. However, Connecticut residents must obtain a Connecticut Marine Waters Fishing License.

Recreational Gears

Any species not otherwise prohibited may be taken by hook and line, or spear fishing (except spears not permitted to take striped bass). In the marine district only, the following gears may be used exclusively to take menhaden, hickory shad, Atlantic herring, eels, lampreys, and "bait species" as defined in state regulations: Cast nets, minnow traps (not more than 20" long by 15" diameter), scoop/scap nets (not more than 36" diameter), umbrella nets (not more than 4' in length by 4' in width), seines (not more than 30' long), and eel pots (two maximum).

Sharks

No person shall take from Connecticut waters any of the following species of shark: Atlantic angel; Basking; Bigeye sand tiger; Bigeye sixgill; Bigeye thresher; Bignose; Caribbean reef; Caribbean sharpnose; Dusky; Galapagos; Longfin mako; Narrowtooth; Night; Sand tiger; Sandbar; Sevengill; Sixgill; Smalltail; Whale; and White shark. The commercial and recreational take of smooth dogfish is temporally prohibited. If any of the species listed above are caught they shall be immediately returned, without avoidable injury, to the waters from which it was taken.

Tunas and Billfish

Atlantic highly migratory species including tunas, swordfish, sharks, and billfish are managed by the National Marine Fisheries Service. For updates on Atlantic tunas visit: www.hmspermits.gov or call the Atlantic Tunas Information Line at (888) 872-8862. For updates on Atlantic sharks, swordfish, or billfish call HMS Management Division (301) 427-8503.
